OUR DUTY TO CUBA.

The peace of Cuba is necessary to the peace of the United States; the health of Cuba is necessary to the health of the United States; the independence of Cuba is necessary to the safety of the United States. The same considerations which led to the war with Spain now require that a commercial arrangement be made under which Cuba can live,—Secretary Root's

I most earnestly ask your attention to the wisdom, indeed, to the vital need, of providing for a substantial reduction in the tariff duties on Cuban imports into the United States. Cuba has in her Constitution affirmed what we desired, that she should stand, in international matters, in closer and more friendly relations with us than with any other power; and we are bound by every consideration of honor and expediency to pass commercial measures in the interest of her material well-being. - President Roosewelt's Message.

TEETH IN WARFARE.

England's Experience in South Africa Shows Need of Dentistry.

After 21 months' fighting four dental surgeons have been sent to South Africa to attend to the teeth of the army. Thus does the war office put forth stupendous efforts to atone for past inaptitude, says the London Pall Mall Gazette.

In an army of a quarter of a million men these four surgeons should will, if he be wise, neglect a chance of having his teeth examined. Each surgeon, therefore, will have a clientele of 62,500 officers and men. Assuming that on every day of the week, including Sunday, 30 men are treated by each dentist, the teeth of the army will have been overhauled and the work of filing, excavating and filling completed in something over 69 months. It should console a man on active service suffering to-day from toothache in a precious molar, which he will not be troubled with the you can get along without servants? agonizing pain later than April, 1907.

In the unequal struggle between trek ox and biscuit on the one hand and mere human teeth on the other, not five per cent, of the men of my company came through scatheless. In many cases the damage was slight; in others, where the teeth were naturally weak and brittle, the mischief done was irreparable. Even with an average set, straining on an average biscuit, you never felt quite certain which would be the first to go-your teeth or your biscuit.

FROM SASKATCHEWAN, WEST-ERN CANADA.

In a letter written from Prince Albert, Saskatchewan, one of the distriets of Western Canada, by Henry Laughlin to Dr. C. T. Field, of Chase, Michigan, and which appeared in the Reed City (Michigan) "Clarion," appeared the following:

"If any one should ask you how I like it up here, tell them I am perfectly well satisfied; for me it is just the place. I have as good a piece of land as ever laid out doors. Wouldn't exchange it for the whole of Lake county, or at least the township of Chase.

"Of course I have not been here very long, but as much of the country as I have seen, it cannot be beat anywhere. We had as good crops here last fall as I ever saw, and everything gets ripe in good shape. We had as good ripe potatoes as I ever ate in my life. There is no better place for stock on the continent than here. Horses and cattle will do as good running out all winter here, as they do where they are fed all winter there. Have built me a residence and now all I want is a wife he had me down for a toast at the banto keep house for me. I have some breaking already done on my place, but next summer I intend to have more done and then I will be ready for busi-

"We have had a very fine winter so far. It has not been much below zero, if any, except about a week in the middle of November. It has been quite cold the past day or two. We are in log shanties, and they are just muddied up on the outside, and nothing has frozen on the inside as yet. There is no wind or rain, just nice steady weather all the time."

Historic Plat Is Sold.

A plat of land in Fourteenth street, New York city, adjoining on the east the site on which stands the Fourteenth street Presbyterian church, has just been sold by J. Edgar Leayeraft & Co. for Rutherford Stuyvesant to Mandelbaum & Lewine. This plat was owned in 1648 by Peter Stuyvesant, who about that time was governor in chief of Amsterdam, in New Netherlands, now called New York, and for many years it was part of his famous Great Bouwerie farm. The property has been in the possession of his descendants ever since he bequeathed it to them until the recent sale, when it passed out of the possession of the trust." Stugvesant family. Near the site Gov. tree was cut down in 1867.

The Four Track News. There is much of education and enlight-enment in the dainty little monthly maga-zine, "The Four-Track News," which comes to us from the editorial workshops of the passenger department of the New York Central & Hudson River Railroad Company. Its pages are filled with interesting matter regarding travel, our expanding commerce and the development of our transportation and the development of our transportation facilities. The January number is devoted largely to California, the idea of the editor being to give special attention each month to that portion of the world to which people are at the time traveling. The leading article on this subject is "The Land of the Sunset Sea," written by Luther L. Holden. Other interesting features are "Egypt." Then Other interesting features are "Egypt Then and Now," by George Eade; "The Romance of Reality," by Jane W. Guthrie; a sketch of Hudson, New York, by H. R. Bryan, and much that is entertaining in verse and well-edited departments. There are also valuable contributions on the cultivation of prunes, olives, grain and sugar beets. 50 cents per year, 5 cents per copy. Business communications should be ad-dressed to George H.
